

Machine Name	Serial #
MX12 Continuous Mixer	CX001-000-2013-7399

SAFETY

INTENDED USE

The primary function of the mixer is to combine various dry and liquid ingredients and mix them into a consistent dough stream. **The machine is not intended to be used for mixing any other material besides dough.**

The mixer is designed to be positioned around other machines that effectively cut off access to the infeed and discharge of the mixing chamber. **The machine should never be operated unless it – and the machines around it - are properly positioned for safe operation.**

All normal operating procedures can be performed without interacting with the moving parts associated with dough mixing. Once the mixer is correctly set up
