## Two Blade Horizontal Slabbing

**FOODTOOLS**  
Industry Leaders in Portion Control

# CS-8AW-2

## Average Speed:

Up To 1,800 Products Per Hour

## Function:

This model is built to precisely and efficiently cut products into horizontal slabs. Slice off the top of a cake for an evenly cut professional look. Increase production and lower costs by baking one cake and slab cutting it into several thin layers for a layer cake. This machine uses two horizontal reciprocating Teflon-coated blades to cut consistent layers from 0.3" to 3.5" thick. This machine is great for a bakery producing layer cakes or slicing the top crown off of cake products.

## Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion even layers every time
- Double cutting station for simple slabbing into multiple layers
- Remove cutting knives and blades from human hands and cut layers mechanically
- Reliable and durable equipment backed by manufacturer's warranty
